Maximum Deduction

No individual occurrence will incur more than a 2.0 deduction.

Boundary Violations

All skills must originate and be completed within the competition boundary. No lineups, skills, or transitions are allowed outside of the competition boundary. Anytime a participant unintentionally steps outside the competition boundary, they must return immediately. The competition boundary is defined as the actual spring floor, the carpet bonded foam panels that connect to the spring floor, and any additional border that supports the spring floor.

Excessive out of bounds is not allowed and will result in a .50 deduction for each occurrence.

Excessive out of bounds include stepping with both feet completely off of the performance mat and its borders.

(Stepping on, or just past the white tape is not a boundary violation).
