

## **PERFECT STORM ATHLETICS TEAM GEAR WASHING INSTRUCTIONS**

**Team jackets** – cold water wash on gentle or preferably hand wash. DO NOT put in the dryer! Rhinestones have been heat pressed on and the dryer will melt the glue and your rhinestones will fall off!

**Cheer uniforms** – hand wash only in cold water. Put a towel between the layers as in some cases the purple on the trim has bled through to the white on the white of the uniform. Either hang this way or lay flat but don't forget the towel! Skirts: pull the white skirt up over the purple shorts and hang to dry from the white part. If you hang from the purple the purple colour may drip/bleed into the white skirt. You can also lay flat to dry but again, you must separate the white and purple to avoid possible bleeding.

**Dance uniforms** – hand wash in cold water and hang or lay flat to dry.

We do not have extra uniforms or jackets so please take care of yours!
